Subject: Access Permits

Cabezeans, Please do not issue new access permits for the next permit year until further notice. Our Air Force and refuge solicitors are reviewing the language in the "hold harmless" agreement as there as been some new language added. We expect to have a new agreement in place by July 1st but that is not definite. If folks come in for new permits let them know that they can check back in with us.

If the following individuals come in for a permit, contact myself, or Mary if I'm not here. If neither of us are here, do not issue them a permit: Scott Warren, Gabriel Leon, Paige Corich-Klein, Genna Jackson. If they have any questions they can contact me.

If folks come in for a permit and it appears that they are part of the No More Deaths group, get myself or Mary to talk with them.

Thank you,

Sid

Sid - we should also be letting the USAF USMC and BLM know not to issue permits for CPNWR to Paige, Gabriel, Scott, or Genna. Otherwise, they will just go to an alternate source.
